

REMARKS

This application claims the priority of PCT/GB2004/003919 filed on September 13, 2004 and GB 0321429.3 filed on September 12, 2003.

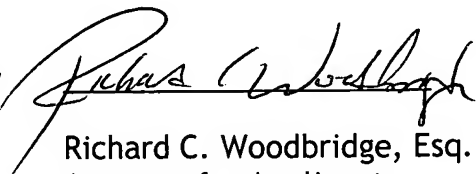

The U.S. Patent Office is hereby requested to examine the application as amended. The amendment to the specification was made to include the priority information and to conform to US patent format. The amendments to the claims were made to remove the multiple dependencies. No new matter has been added by making these amendments.

We have enclosed the search report issued by the UK Patent Office on the corresponding UK patent application as well as Form PTO 1449.

If the patent examiner has any questions or comments, he/she is respectfully requested to contact applicants' attorney at the telephone number indicated below so that additional amendments may be added as required.

Respectfully submitted,

David Hilton, et al.
